17:30	End of the workshop		

Who should attend ?

Residents involved or interested in spinal neurosurgery.

This meeting will help them to become familiar with the different approaches to the cervical spine, but also allow them to use and compare the tools of some of the major instrumentation providers.

We provide separate sessions for junior and senior residents.

Venue

Université de Liège
Anatomie Humaine, Faculté de Médecine
Département des sciences biomédicales et précliniques CHU B23, Tour Patho 3, niveau -1
Sart Tilman, 4000 Liège 1
